

As a KLOVE listener I find peace in my radio listening which helps me to maintain calm while driving in the ever increasing day to day stress of commuting to and from home and work.

I know that a great number of people in the OKC listening area would be negatively impacted by a decision that would prohibit the reception of the positive and encouraging message found in the KLOVE broadcasts. Certainly this and many other communities across this great nation can only benefit from this type of broadcast. This became very clear recently as I recalled the events of the last superbowl halftime show broadcast. KLOVE only serves to provide a positive message of hope and love to the community and it might be the only positive message that some may hear all day. Imagine the effect if it were replaced with a message from perhaps Howard Stern or Eminem. What a great message to fill the airwaves.
